

PRAVEEN

Backend Developer — PHP / Laravel

+91 88703 46885 | praveendp146@gmail.com | Madurai | github.com/praveenjaisingh | Portfolio: <https://portfolio-seven-blond-mvipujv79o.vercel.app/>

PROFILE

Backend Developer with 1 year of hands-on experience building and maintaining production REST APIs in PHP (Laravel). Comfortable across the stack (MySQL/PostgreSQL, Node.js, React basics) with a Computer Science Engineering background. Focused on writing clean, well-tested code and shipping features that hold up under real usage.

TECHNICAL SKILLS

Languages: PHP, JavaScript, HTML, CSS, Core Java

Frameworks: Laravel, Node.js, React.js

Databases: MySQL, PostgreSQL

Tools: Git/GitHub, Postman, VS Code, Eclipse

WORK EXPERIENCE

Backend Developer — Cloud Revel Innovations

Aug 2025 – Present

- Built and maintain RESTful APIs in PHP (Laravel) powering core production features used by end users daily.
- Designed database schemas and wrote migrations/queries in MySQL and PostgreSQL to support application features end-to-end.
- Built authentication, role-based authorization, and CRUD modules using Laravel's MVC architecture, reducing repeated boilerplate across new feature modules.
- Worked closely with frontend developers to integrate APIs end-to-end, resolving integration issues to ensure smooth, reliable functionality.
- Debugged and optimized existing endpoints to improve performance and reliability across the application.
- Participated in code reviews and agile sprints (standups, sprint planning) using Git-based version control.

PROJECTS

SmartAgri-Connect — smart-agri-connect-gamma.vercel.app

- Built a full-stack e-commerce platform for agricultural product sales (HTML/CSS/JS, Node.js, PostgreSQL) with authentication, product listings, cart, and order management.
- Designed a responsive UI and backend data model to manage users, products, and transactions across devices.

Repo/Graph — GitHub Repository Analytics — git-hub-repository-analytics-backen.vercel.app

- Built a backend analytics tool that pulls repository data via the GitHub API to surface commit activity, contributors, and repo statistics.
- Designed the API integration and data-processing pipeline that transforms raw GitHub API responses into readable analytics output.

Other projects: AI Resume Analyzer, Explore City, SelfAI, IP + GPS Location Finder, Real-Time Interview Platform — Node.js apps covering file handling, geolocation APIs, and authentication/session management. Links on GitHub and portfolio above.

EDUCATION

B.E. Computer Science — Pandian Saraswathi Yadav Engineering College

2021 – 2025

CGPA: 8.1

CERTIFICATIONS / TRAINING

- Python Trainee, Phoenix Softech (Jul 2023) — short-term hands-on training in core Python programming and problem-solving.
